

Industrial Ergonomics - A 2-Day Public Workshop

Learn to make simple and effective human performance improvements in the workplace with these open-enrollment training programs offered by Humantech's experienced ergonomists. Hands-on problem solving methods will help you recognize, evaluate, and control ergonomic risk.

Build the foundation for a sustainable ergonomics process.

Many companies struggle to establish an ergonomics improvement process, and as a result, they fail to drive down injuries. With 40 years of experience helping Fortune 1000 companies, our board-certified professional ergonomists know which principles will help you achieve long-term success. After attending this workshop, you'll be able to recognize, plan, and integrate both strategic and tactical elements of ergonomics into your current business process.

New This Year: Choose from two different tracks on Day 2. Visit the [website](#) for full details.
