

# Office Ergonomics Software

## A Total Online Solution for a Healthy and Productive Workplace

Empower your people to make instant improvements to their workplace while you manage the process. Humantech Office Ergonomics software from VelocityEHS, offers a fast, easy way to minimize the risk of musculoskeletal disorders and reduce costs associated with injuries and lost time.

### Ergonomics Made Easy

We help you deliver expert-designed, online training and self-assessment tools to every employee across your organization for a fraction of the cost of traditional in-person consultation. There are three easy steps.

### LEARN

Short, interactive online training modules teach your employees how to set up their own workstations properly.

### DO

The employee self-assessment provides immediate feedback and recommendations.

### MANAGE

Reports help you prioritize issues, track action plans, and monitor trends and equipment needs across locations.

## Why Humantech Office Ergonomics?

Musculoskeletal disorders, such as back strain and carpal tunnel syndrome, account for one third of workplace injury and illness costs. Yet, research shows that fewer than 5% of office employees need a one-on-one assessment by an ergonomics expert. Humantech Office Ergonomics lets you take control and engage large groups of employees in no time.

- **Simple** – reduces training and assessment times by 75%
- **Cost-effective** – reduces the need for face-to-face assessments
- **Proactive** – educates employees on how to solve their own issues
- **Management-driven** – identifies trends and tracks solutions
- **Flexible** – tailors features to your company's needs
- **Global** – available in a global suite of languages
- **Supported** – remote assistance and professional consultation available
